## Line 3 Replacement Project in Minnesota

# Virtual Open House with Enbridge

We invite you to join our virtual open house for a conversation around what happens when a pipeline goes into service and how we operate our system in Minnesota as we move from construction to operations of the new pipeline that replaces Line 3.

Enbridge is hosting a virtual open house that will have telephone or webcast options. Once you register at [enbridgeopenhouse.com/SeptOH](https://enbridgeopenhouse.com/SeptOH), you will receive a link providing you with meeting details.

Meeting date **changed to: Wednesday, September 29 at 5 p.m.**

You can also visit our virtual open house any time at: [enbridgeopenhouse.com/line3](https://enbridgeopenhouse.com/line3).

TTY: 651-297-4357

Dear Auditor:

In June, the State Demographic Center normally releases its population and household estimates for use in a number of state programs. However, in the year following a decennial census, we do not prepare estimates but use the counts from the census. As a courtesy to you, we are providing the population and housing counts from the 2020 Census for all the cities and townships in your county. These counts will be the base of our estimates in the coming decade. Please note, data in the enclosed reports are for geographic areas contained in your county. If a city spans multiple counties, only the population and housing unit counts for the portion in your county are provided. Whole city populations for multi-county cities are available on our website, <https://mn.gov/admin/demography/>.

Since these 2020 counts are collected by the Census Bureau, a federal government agency, we have neither the authority nor the ability to make changes. If you feel there is a problem with the counts, you will need to participate in the Count Question Resolution (CQR) Program established by the Census Bureau. Information about this program will be sent to the highest elected official of your jurisdiction. The Census Bureau will begin accepting challenges in January 2022. All challenges must be received by the Census Bureau no later than June 30, 2023. It is important to point out that the Census Bureau will not collect any additional data or conduct any field work during this challenge process. The Census Bureau will be looking for three types of errors:

1. Boundary—Inaccurate reporting or inaccurate recording of government unit boundaries in effect on January 1, 2010.
2. Geocoding—Placement of housing units and group quarters in the wrong governmental unit and/or census tabulation block.
3. Coverage—Errors resulting in the duplication or exclusion (Census processing errors) of living quarters and persons.

These errors may be difficult to prove, but we will know more when final rules are available. A final set of rules for the CQR program are expected in a Federal Register Notice by the Fall of 2021. For further please visit CQR Census News site: <https://www.census.gov/newsroom/press-kits/2021/2020-census-count-question-resolution.html>.

If you do submit a challenge to CQR, please notify us. We will try to provide any assistance that our limited staffing allows.

Sincerely,

A handwritten signature in black ink that reads 'Susan Brower'.

Susan Brower  
State Demographer

Enclosure(s)
